PRESS RELEASE

DWS S.r.l., a leading Italian company in the field of 3D printing, holding more than 250 patents and known worldwide as one of the most innovative companies in the sector, is expanding with the inclusion of B Group.

Thiene (Vicenza): DWS S.r.l., who specialise in 3D printers for prototyping, rapid production, 3D printing materials and related management software, has announced a share capital increase in favour of B. Group S.p.A.

The inclusion of B. Group S.p.A. was completed by means of a capital increase reserved for the new shareholder. It will provide DWS with financial resources and managerial expertise for the development of the dental division, as well as financing research and development of new products. With its unique products, the dental division represents an innovation for this sector, accelerating its transformation towards the digital world.

DWS S.r.l. is an Italian company based in Thiene (Vicenza). It designs and manufactures 3D printers for prototyping and rapid production, materials for 3D printing and related management software. Quality and continuous innovation are the company's hallmarks and, since 2007, it has filed over 250 patents for industrial property, technology and design. DWS exports 80% of its production to more than 60 countries worldwide, focusing on the jewellery, fashion, industrial and dental sectors, helping its client companies reduce the time it takes to develop new products and lower their operating costs, thus increasing their competitiveness. DWS S.r.l. is a supplier to prestigious fashion and luxury brands, including Bulgari, Tiffany and Cartier, as well as multinational industrial groups such as Samsung, Bose, Panasonic and Sony.
