

NOVELTIES INSIDE

3D Printing at the service of the footwear industry.

The solution that meets the different needs of those
who produce soles, shoes, heels, inserts and insoles.

*La soluzione che incontra le diverse esigenze di chi
produce soles, scarpe, tacchi, inserti e solette.*

EN - IT

The solution for the footwear industry.

DWS produces 3D printers, software and materials completely in-house.

DWS realizza stampanti 3D, software e materiali completamente realizzati in-house.

The **XPROSL** printer has the laser and dimensional capabilities to produce any **maquette, sole or mold in the world of footwear**, achieving perfect surfaces even without post-processing.

The materials lend themselves to the production of rigid, semi-rigid, flexible pieces with high thermal resistance and transparency.

La stampante **XPROSL** ha le caratteristiche laser e dimensionali per produrre ogni **maquette, suola o stampo nel mondo della calzatura**, ottenendo superfici perfette anche senza necessità di post-lavorazione.

I materiali si prestano a realizzare pezzi rigidi, semirigidi, flessibili, ad alta resistenza termica e trasparenti.

MA QUE TTE

Amazing accuracy.

Made with DWS material: INVICTA DL385

NEW

Made with DWS material: INVICTA DIGITAL SKETCH

- ✓ Realism
- ✓ Surface quality
- ✓ Variety of materials

MO LDS

**No more
aluminum
molds.**

Made with DWS material: THERMA DM500

- ✓ Speed
- ✓ Cost cutting
- ✓ Flexibility

SOLES & SHOES

**Unmatched
geometries.**

Made with DWS material: FLEXA 10B

Made with DWS material: FLEXA 8B

- ✓ Flexible materials
- ✓ Freedom of shape
- ✓ Time to market
